

Year 3 Half Term Homework - How Humans Work!

Next term in IPC, we will be focusing on Science. Our first topic will be How Humans Work. Over the half term, complete a project about the human body. You could make a model, a poster or an information text. Maybe you could do some of your own experiments:

philipmartin.com

Measuring your heart rate, checking your fitness, doing an eye test...there's endless possibilities to what our bodies can do, they are amazing! We will be learning about the teeth, heart, skeleton and muscles. You could learn about how these body parts work, what is good and what is bad for them. We want to be healthy and happy in Year 3!
